

TEMPORARY DENTAL SERVICES

PPP and RMC Group have teamed up to provide a Temporary Dental Service solution. This valuable program is unique to the PPP and meets the specific needs of dental practices after a catastrophic property loss. The goal is to retain patients by offering a temporary, fully functional, dental facility within 30 days of the catastrophic event. Some property losses may not require the full services of a temporary location. RMC Group will continue to work with those practices to mitigate the loss.

Initial damage assessment and inspection.

Temporary facility location identified. Assist in lease negotiation, if needed.

Buildout of temporary facility space.

Temporary dental equipment provided during the period of restoration.

Removal of temporary dental equipment once permanent equipment is installed.
