

PPP PROPERTY ENHANCEMENTS AND SERVICES

The Professional Protector Plan® for Dentists has always been a leader in our market for developing a unique and comprehensive insurance program for dentists. With our new carrier partner, AAIC, we have continued to evolve the PPP into a program that meets the needs of today's dentists.

The PPP property policy has been widely regarded for its coverage being designed specifically for a dental office. No dentist in the PPP has a generic property policy protecting their dental office. With our new carrier partnership, the PPP has expanded the strength of our property policy, offering you more coverage and services than ever before, along with tools to keep your office operating effectively even during an unforeseen loss.

PPP PROPERTY BENEFITS

RISK MANAGEMENT EDUCATION

Stay up to date on how to mitigate against property claims, implement monthly property checks, and perform annual inspections.

The PPP's live seminar and Risk Management Newsletter also address common dental practice claims, costs, and best practices for general liability, cyber liability, and property exposures.

Educational articles are available at www.protectorplan.com.

TEMPORARY DENTAL SERVICES

When a loss does happen, rest assured the PPP's exclusive temporary dental services team is standing by ready to help. This may involve a consultant evaluating equipment to determine if it can be salvaged, repaired, or if it must simply be replaced. In the event of a catastrophic loss, temporary relocation of your dental practice is secured for you while repair work is done, so you do not lose patients or revenues in the interim.

PPP PROPERTY CHECK-UP

A complimentary service to all property insureds, whether owner or tenant, professional property inspectors can provide a building and general liability analysis, emergency services evaluation, interior and exterior safety checks, and assessment of key building updates. Recommendations are made to keep your property in tip top shape and provide advance warning of potential issues that may impact your practice's livelihood or result in catastrophic losses.

EQUIPMENT BREAKDOWN

For an additional premium, you can add an additional layer of protection for your boiler, machinery, and HVAC through our Hartford Steam Boiler equipment breakdown product.
